

Literacy

Students will be writing fairy-tales. They will be based on traditional fairy-tales, where they will be looking at setting the scene and the use of descriptive language.

The aspect of grammar the students will be concentrating on will be "show not tell".

Computing

Students will be looking at coding. This will include programming, debugging and writing different codes. They will be able to explain how to program and change programs that have already been made.

Maths

Students will be revising topics from the Year 6 Maths curriculum.

Art & DT

Students will be looking at Mountains. Students will design and build a mountain that has a working ski lift.

YEAR 6

Autumn

Term 5

Science

Students will be studying 'Seeing Light'. This will consolidate their knowledge of light and shadow and how they work and then goes on to extend their knowledge of light and shadow through a variety of fun, practical and informative activities.

Humanities

Students will be looking at Mountains in Geography and how mountains are formed.

RE

Students will be looking at Places of Worship amongst all the religions. They will be looking at where they are and when people go to them.

Languages

Students will continue to follow the KS2 Scheme of Work for Spanish and Latin.

Music

Students will be participating in drumming, concentrating on rhythm and beat. As well as this students will be participating in class singing practice.

PE

Children will take part in producing and performing the musical Bugsy Malone as their finale performance as year 6 students. Children will practice lines, learn dance routines and learn to retain lyrics to produce the performance.
